

Nursery Summer 1 'Growing'

This half term our topic is 'Growing' and we will be focusing on the story 'The Very Hungry Caterpillar'. We will be using a story map and actions to retell the story and we'll also learn a song about the life cycle of a caterpillar.

In maths, we will be working on recognising numbers to 3 and subitising to 3. They will also continue to sing number rhymes and match numbers to objects.

We will be going to the Forest School every Tuesday. Please send your child to Nursery in warm clothes and with a pair of wellies.

As our topic is 'Growing', we will have Caterpillars and Tadpoles in our classroom. We will be looking at their life cycles and focusing on the changes we observe.

As the weather gets warmer, it's important that children stay hydrated. Please send your child to Nursery with a water bottle every day.
