

# Year 1 'Can you grow your own vegetables?' Spring 2

## Welcome!

We hope you had a lovely half term and are excited for all the new learning this term.

## English

We will be looking at 'The Paper Bag Princess' this half term.

We will be focusing on writing sentences neatly with capital letters, finger spaces and full stops.

We will also be using adjectives for describing the setting and characters.

Finally, we will be looking at the suffixes, -ing, -ed, -er and -est.

## History

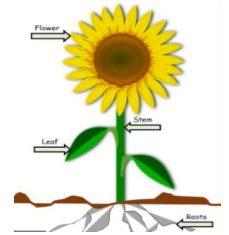

As Historians, we will be continuing to learn all about The Great Fire Of London.

This term children will also build Tudor houses made from cardboard and straw. We will then set them on fire to recreate The Great Fire Of London.

Children will hopefully see and understand how quickly the fire spread on the day.

## Science

As scientist, we will be looking at plants this half term. We will be thinking about what a plant needs to grow, labelling the different parts of a plant and planting a seed.

## Homework

Homework is set weekly on Seesaw. Children should read and use Sumdog everyday for 15 minutes.

## DT

This term we will be making dishes with vegetables. Children will understand where food comes from, as well as learn about the basic principles of a healthy balanced diet.

## Music

We love to be musical! As musicians, we will be working on improving our vocal voice and be using musical instruments. We will be also be working in groups to practice and performing songs in front of our peers. Our song this term is called 'Round and Round'.

## Maths

In Maths, we are focusing on Measurement which will cover aspects, such as length, height, weight and volume. Children in Year 1 will be building their skills and learning through the concrete, pictorial and abstract concept.

We will also be consolidating previous learning. Children will also be focusing on counting in 2's, 5's and 10's.

## PSHE

Our focus this term is building resilience and self belief. We will be having lots of whole class discussions, role playing and completing activities.
