

Reception Autumn 1

Drawing Club

This half term we will be focusing on the story of 'Goldilocks and the 3 bears' and a variety of texts.

We will have a focus on mark making/ writing for a purpose whilst drawing pictures from different stories.

How to help your child at home

These are a few things to help your child with:

- Recognise their own name
- Start to write letters of their name
- Using a knife and fork when eating their meals

Phonics

We will be starting the teaching of phonics in the next couple of weeks. We follow the Read, Write, Inc scheme in school and will be starting with the sounds M, A, S, D, T.

Ask your child to say words which start with these sounds to consolidate their learning in the classroom.

Maths

This half term we will be looking at numbers in the environment and why we use numbers. We will be going for a walk around the school site to see where we can see numbers and what

they are used for. When you are out walking, see if your child can spot any numbers and tell you what they notice about where it is.

The World

This half term we will be focusing on 'Ourselves'. We will be asking the children to tell the class who lives in their house, who is in the family etc. We would appreciate if you could send in family photos and photos of the children for them to share.
